### COMPOUNDS

- Black - E5 - Emery: Most Aggressive cutting, removes scratches, rust, & burrs from ferrous metals
- Brown - TC6 - Tripoli: Aggressive, removes surface marks on all non ferrous metals and plastics
- Gray - SCR - Stainless: General Purpose, Good cut and color, restores luster to ferrous metals
- Blue - PBC - Plastic: Excellent for plastics, acrylics & removing scratches from Corian
- White - WR1 - White Rouge: Restores natural luster to non-ferrous i.e. Aluminum, Copper & Brass
- Red - JR1 - Jewelers Rouge: Finest abrasive, premium product for coloring precious metals
- Green - GRN - Green Rouge: Brilliantly finishes all metal, particularly ferrous metal, Great coloring

### Buffing Wheels

SPIRAL SEWN - The workhorse for most aggressive cutting

CUSHION SEWN - Ideal for light cutting and coloring

FLANNEL SEWN - Ideal for the final finish and a brilliant luster
